Skills

Programming Languages
C/C++, PHP, JavaScript, Scala, GNU Octave, Python

Web Development
HTML, CSS, JavaScript, React, MaterialUI, node JS

Mobile Application Development
React Native

Database
MySQL, MongoDB

Design Tools
Figma

Other
Git, Linux, Trello, POSTMAN

Soft Skills
Hard-working, Quick Learner, Team Worker, Responsible

About Me

I am a third-year undergraduate at University of Colombo School of Computing and eagerly seeking opportunities to enhance and maintain my technical skills. I'm interest on web and mobile development and I excited to put my knowledge to work as an effective and valuable team worker. My flexibility and adept negotiation skills allow me to adapt to diverse challenges and collaborate seamlessly with team members. I look forward to contributing as a collaborative team worker with effective in time management

Projects

Happy Tails - | Ongoing
(3rd Year Group Project)

From this system, introduce a system with centralized facilities for pets like Animal Care Center offers comprehensive services including pet boarding, a pet online store, meet experienced veterinarians, online appointments and skilled groomers within a limited area of our country.

My Contribution : Landing Page for the system, Boarding House Manager actor and Administrator actor frontend

Technologies : React, NodeJS, ExpressJS, MySQL
GitHub | repository

Gasify - An Innovative Online LP Gas Reservation System
(2nd Year Group Project)

A fully functional web application created without the use of any frameworks. This is web application, developed an advanced platform that streamlines the gas reservation, delivery, and distribution process in the Colombo district. Finally, created an efficient and user-friendly solution to enhance the LP gas reservation process.

My Contribution : Complete all functionalities of Gas Distributor actor.

Technologies : HTML, CSS, JavaScript, PHP, MySQL
GitHub | repository

Education

Bachelor of Science in Computer Science

University of Colombo School of Computing

2021 - Present
Current GPA : 3.2

G.C.E. (O/L & A/L)

Anula Vidyalaya, Nugegoda

2010 - 2018

GCE AL - 2019
Combined Maths - B | Chemistry - A|
Physics - C

Volunteering

IntelliHack 2.0 - IEEE Computer Society Student Branch Chapter | Member of Organizing Committee | Finance Team |
Certificate

Hackaholics 5.0 - IEEE WIE Student Branch Affinity Group of UCSC | Member of Organizing Committee | Logistics Team |
Certificate

Career Fair 2022/23 | Member of Organizing Committee | Program and Hospitality Team

Installation Ceremony - Rotaract Club of UCSC | Member of Organizing Committee | Finance Team | 2022

Learning Projects

BlogApp - An application to maintain blogs

BlogApp is a web application created to maintain blogs. Through this application, it can be add, view, update and delete blogs.

Technologies : MERN STACK

GitHub | repository

OnlineStoreApp - An application to maintain a online shop

OnlineStoreApp is a web application with frontend created to maintain an online shop.

Technologies : React

GitHub | repository

Restaurant-App - A landing page for a restaurant

Restaurant-App is a landing page for a restaurant created only the frontend. Introduction, About, Services, Contact etc included to the home page.

Technologies : React

GitHub | repository

Achievements

REVOLUX 2.0 - IEEE Student Branch of UCSC
Participation | Certificate

CODESCAPE - IEEE WIE Student Branch Affinity Group of UCSC
Participation | Certificate

FreshHack 2.0 - ISACA of UCSC
Participation | Certificate

WicSat - IEEE WIE Student Branch Affinity Group of UCSC
Participation | Certificate

Extra Curricular Activities

Member of Rotaract Club of UCSC

Member of School Eastern Band 2013/14

Member of School Net Ball Team 2012/13
